

CLOE FINAL CONFERENCE 2026

Working with complexity: multidisciplinary approaches to rural and mountain sustainable development and conservation

September 16th - 18th 2026 | Genova (Italy)

The team behind CLOE Project will hold the Final Conference 2026. The conference will bring together young researchers, policymakers, citizen, experts and students to discuss current and emerging challenges for developing sustainable strategies regarding social and environmental protection and justice. We welcome submissions that investigate the Project's main topic under environmental, historical, socio-political, economic, engineering, sociological and legal perspectives.

For further information visit the conference website at
https://cloe.dp.unige.it/dissemination_communication

SESSIONS

- I. Environmental conservation and the social dimension: exploring how environmental resource management and policies influence nature and indigenous communities and vice versa
- II. Integrated Approaches and Historical Perspectives on Environmental Risk Mitigation
- III. Modeling of emerging commons and regulation of common goods
- IV. Ecosystem Services: Unlocking Resilience for Climate Challenges
